IT Department  
Air India Ltd  
Mumbai,IN

Dear Sir/Madam,

I am writing to express my interest in the internship programme with your prestigious airline, Air India. I am seeking a challenging but rewarding internship which is why I was drawn to this opportunity as an aspiring student.

I am currently majoring in computer engineering and will receive my degree in 2021. I have acquired skill set in programming languages like Python, Java, C++ , web development software and languages like HTML, CSS, JavaScript, php and database management tools like Oracle. I have strategically focused my subjects according to my interests which are data analysis and web development.

I have earlier interned and gained experience in the field of database management systems. During the internship, I had the opportunity to learn Oracle Express software. I also learnt how airline reservation systems and check-in kiosks work and how pre/post flight breath analysing examinations are carried out.

During my winter break, I hope to work for a premier airline like yours to grow my experience. With the right opportunities and experience working with a premier airline , I believe that I can achieve my goal.

I would like the opportunity to meet with you and discuss internship opportunities you have available. Please let me know if you have any questions or would like to see specific work samples. You can reach me by email at [jaydjhangiani@gmail.com](mailto:jaydjhangiani@gmail.com) .

Thank you for your consideration,

Sincerely,

**Jay Jhangiani**
